

*The Ultimate Body Armor**

Living in a world surrounded by germs and toxins, we are constantly trying to stay one step ahead of their effects on our health. Keeping your immune system healthy is key to winning this battle—especially since prolonged exposure to these health invaders can really take its toll on your daily well-being*

Think of your body as a castle, and germs and bacteria as hostile foreign armies that try to invade your body to use its resources to serve their own purposes. The immune system is your body's armor, our first defense against invisible invaders. Everyday, it seems there are more and more new strains of germs and viruses threatening our health, vitality and even survival.*

Dollar Coffee Club's MegaDefense® is a premium, all-natural, daily wellness solution. Featuring the world's safest immune-modulating herbs—a blend of medicinal mushrooms combined—MegaDefense is the most robust daily immune-support product on the market today. MegaDefense is a must for anyone looking to free themselves from the escalating costs of health care and take a proactive and preventive role in ensuring optimal health and vitality.*

MegaDefense® can help:

- Support Natural Killer (NK) Cell activity.*
- Play a role in immune health modulation.*
- Protect against free radical damage.*
- Protect cells*
- Promote overall health and well-being.*

Each bottle contains 30 (2 capsule) servings.

Preferred Customer \$40 • **Club Member: \$35** • **AutoShip: \$30**

Recommended Use: Take 2 capsules daily (with or without food) either at once or individually. For best results, drink two sticks or more daily.

Agaricus Blazei

*Known in Brazil as the 'sun mushroom', Agaricus is believed to help prevent atherosclerosis and inhibit tumor growth and activate NK cells.**

Lentinula Edodes

*Indigenous to East Asia, the Shiitake mushroom is suggested to be antifungal, antimutagenic and anticarcinogenic.**

Super Mushroom Blend

It is therapeutically best to utilize a blend of several mushroom species, because "the whole is greater than the sum of its parts." For one thing, it is easier for pathogens in the body to adapt and become resistant to one mushroom than to several. Secondly, each mushroom species has a unique arsenal of anti-infective and immunomodulating agents.
